Inoteka: data on «foreign agents» and «undesirable» organizations

Датасет на русском языке: «Иноотека»: исходные данные по иноагентам и нежелательным организациям

On the 29th of September the Russian Ministry of Justice included OVD-info in the registry of unreported public associations fulfilling functions of a «foreign agent» («inoagent» in Russian transcription). **Since 2021, 12 mass media, 56 journalists and 12 non-profits (NPOs) were added to the registry of «inoagents». In the course of 9 years, since the adoption of the law in 2012, the total of 315 «inoagents» were registered, and 50 more organizations were deemed undesirable.**

We have collected data about organizations that were deemed «undesirable» on the Russian territory, and also about all of those who were recognized as «foreign agents». All data we publish is presented as a constantly updated dataset.
